01 Impression Materials

The first step to a perfect mould: precise, hygienic ear impressions.

1000249

Odyomix Purple 2×700 g

Special formula for manual earmould making

$24 USD

1000248

Odyomix Red 2×700 g

Special formula for 3D earmould making

$24 USD

1000239

LED Impression Tweezers

For earwax removal and foam block placement

$11 USD

27812

Impression Foam Blocks

50 pcs

$3 USD

1000801

LED Otoscope

Available in several colours

$41 USD

1000285

Impression Kit

2×700 g, with free LED tweezers and 50 foam blocks

$31 USD

1000120

Impression Syringe

High quality, easy application

$8 USD

02 Manual Earmould Production

Professional equipment and consumables for traditional mould making.

1000220

Impression Repair Wax

For repairing ear impressions

$8 USD

1000190

Pink Paraffin Wax

For a smooth surface, 500 g

$15 USD

61230

Electric Wax Knife

For use with repair wax

$122 USD

68130

Proxxon Disc Sander

For flattening shells

$388 USD

1000802

Wax Melting Pot

Thermostatic, easy to use

$61 USD

1000803

Gel Melting Machine

Rotating blade, practical

$204 USD

Son-1

Sonic Acrylic Material

1 litre, clear

$133 USD

Son-2

Sonic Acrylic Material

300 g, clear

$51 USD

Son-3

Sonic ITE Shell Material

Skin tone, 1 litre

$133 USD

Son-4

Sonic ITE Shell Material

Skin tone, 300 g

$51 USD

52900

Gel Flask

Thick, durable material

$1 USD

40900

Dublicant

6 kg bucket

$61 USD

Manual Earmould Production · continued

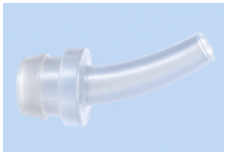

1000230
Bachmel Silicone
40 Shore, high quality, clear
$39 USD

25100
Dispensing Gun
For silicone mould making
$51 USD

1000281
Mixing Cannula
For injecting silicone, imported
$1 USD

25200
Narrow Cannula Tip
For narrow canals and small moulds
$1 USD

89330
Rotator
Magnetic tip; dries moulds after lacquering
$41 USD

1000302
Bio-Lack
Antibacterial silicone lacquer, 250 ml
$41 USD

1000313
OdyoPress
Removes bubbles from silicone and cures the mould
$153 USD

03 3D Earmould Production

Digital earmould production, from scanning to printing.

TURNKEY SOLUTION · CODE 1000247

3D Earmould Production Set

- Anycubic Photon P1 resin 3D printer
- Elegoo wash and cure station
- 3D Maker Pro Seal Lite 3D scanner
- Free modelling software, no credits needed
- 2 L mould resin (1 L hard + 1 L silicone)
- Training support until you master it

SET PRICE

$3,500 USD

1000296
Fotocast 2.0
Silicone mould resin, no separator needed

$153 USD

1000193
3D Clear Resin
For 3D acrylic earmoulds

$153 USD

1000277
3D Skin Tone Resin
For ITE shells and moulds

$153 USD

ODY-6
Sonic UV Lacquer
For polishing acrylic moulds, 250 ml

$102 USD
